PREFACE.

It is with pleasure we herewith present to our patrons and the general public the HAVERHILL AND BRADFORD DIRECTORY, for 1889, No. 13 in the series. It has been our constant aim to publish Directories (which we have made a specialty of, since 1862), that shall be a credit not only to us but the communities which they represent, and we express the hope that this edition may meet every reasonable expectation. It is scarcely necessary to state that the difficulties and expenses incident to the compilation of such a work are enormous, and not to be appreciated by any except the initiated.

While grateful for the generous patronage given to the advertising department, to which we call special attention, we would suggest to every citizen to secure a copy for his business place or residence, not only as a daily convenience but as a valuable record of local history.

The following synopsis shows a gratifying increase since our last issue:

Names in 1889,	10,982
“ 1887,	9,881
Increase,	<hr/> 1,101

With hearty thanks to one and all for their co-operation,

We remain, respectfully,

W. A. GREENOUGH & CO.,

Editors, Printers and Publishers.

NEARLY THREE HUNDRED TAPLEY TWIN HEEL BURNISHERS

— IN USE AT THE —

Beginning of the Year 1889,

— AND —

GIVING ENTIRE SATISFACTION.

The Twin

requires but
ONE OPERA-
TOR.

THE JACKS
are MOVED
AUTOMATI-
CALLY.

The Twin

will do
Better Work
than the
SINGLE,
and DOUBLE
the
QUANTITY.

The Twin will do with entire satisfaction any heel from the smallest child's to the largest man's in size, or from the straightest and cheapest on a kid boot to the finest extreme French on a lady's high cost shoe.

The amount of space required for the Twin is the same as is occupied by One Single Tapley, and the machine is driven by one pulley and belt.

No manufacturer who has capacity for more than one single Tapley can afford to do without the Twin.

We allow a liberal price for single Tapleys taken in trade for the Twin.

Tapley Machine Co., 220 Devonshire St., Boston.

(SEE OTHER SIDE.)

THE TAPLEY HEEL BEADER,

— FOR —

Finishing the Edges of Heels

— AT THE —

TOP LIFT AND SEAT.

We can confidently recommend our machine for the following reasons:—

1. By the Rubbing Motion of the tool of this machine there is produced a most solid and durable edge, much superior to the work of a rotary machine.
2. The SEAT WHEEL, instead of the plain beading iron, may be used with this machine when desired.
3. The machine is adapted to RISER, as well as COARSER GRADES of work.
4. The results are equal to the best obtained by HAND.

We Respectfully Submit the Following Testimonials.

FROM CHARLES B. TILLETTS.

THE TAPLEY MACHINE CO., Boston, Mass.

LYNN, MASS., Feb. 17, 1887.

Gentlemen:—After using one of your Twin Tapley Heel Burnishers for more than two months, we feel that fully recommended it as doing much better work than the single machine at a great saving of cost. Now using two.

Yours truly,

CHARLES B. TILLETTS.

FROM V. K. & A. H. JONES.

THE TAPLEY MACHINE CO., Boston, Mass.

LYNN, MASS., Feb. 15, 1887.

Gentlemen:—We have used your machine for some time past using your Twin Burnisher, and consider it a most excellent machine. It does more work than the cat machine, and the work done is of better quality. It is not a less machine in every respect, and we consider it worthy of the recommendation which we cheerfully give.

Yours respectfully,

V. K. & A. H. JONES.

FROM HUDSON RIVER BOOT AND SHOE MFG. CO.

THE TAPLEY MACHINE CO., Boston, Mass.

POUGHKEEPSIE, N. Y., Sept. 17, 1886.

Gentlemen:—We desire to take this opportunity of saying to you that the Beading Machine work to perfect and working in connection with the Tapley Twin they finish the heel seat and top piece very much better and faster than by hand process, with a very considerable saving in cost. We consider the Beading standard machine and would soon think of doing without our heel and edge burnishing machines as we would to finish our heels without the Tapley Bender.

Yours respectfully,

G. M. HINE, Sup't.

BOSTON.

"Globe Flexible Insole"

It has no Equal for
Strength, Durability, Flexibility
and Comfort.

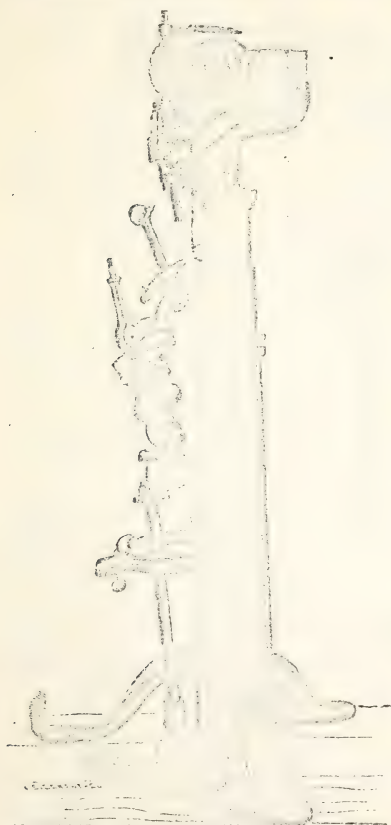

MILLIONS OF PAIRS

Used by our Leading Manufac-
turers in Machine Sewed Boots
and Shoes.

The fabric from which this insole is cut is an invention of so much importance to the MANUFACTURER, and so valuable to the consumer, that we would call your special attention to its many uses, viz.: First, Flexibility, with greater strength than soft leather. Second, Durability, and the ability to wear longer than any other material. Third, being softer than leather, allows the foot to be perfectly flat. This makes the shoe smooth and comfortable, and as comfortable as a hand-sewed or turned shoe. Fourth, being softer than leather, allows the foot to be perfectly flat. This makes the shoe smooth and comfortable, and as comfortable as a hand-sewed or turned shoe. Fifth, being softer than leather, allows the foot to be perfectly flat. This makes the shoe smooth and comfortable, and as comfortable as a hand-sewed or turned shoe. Sixth, being softer than leather, allows the foot to be perfectly flat. This makes the shoe smooth and comfortable, and as comfortable as a hand-sewed or turned shoe. Seventh, being softer than leather, allows the foot to be perfectly flat. This makes the shoe smooth and comfortable, and as comfortable as a hand-sewed or turned shoe. Eighth, being softer than leather, allows the foot to be perfectly flat. This makes the shoe smooth and comfortable, and as comfortable as a hand-sewed or turned shoe. Ninth, being softer than leather, allows the foot to be perfectly flat. This makes the shoe smooth and comfortable, and as comfortable as a hand-sewed or turned shoe. Tenth, being softer than leather, allows the foot to be perfectly flat. This makes the shoe smooth and comfortable, and as comfortable as a hand-sewed or turned shoe. Prevention of perspiration. No roughness to the upper. EASY TO THE FEET. Will always keep in shape. In a year the shoe the feet as leather does. Shoes can be half-soled and tugged with nails or pegs, when worn out as well as leather. We guarantee the GLOBE INSOLE to have all the above advantages over leather.

GLOBE BUFFER CO., 110 Lincoln St., Boston.

Boston Lasting Machine.

This Machine has advantages over all Machines heretofore made in the following Essential Features:

1st. The shoe is lasted upon a jack, the upper being drawn over with pincers in the hand of the operator precisely as in hand lasting.

2d. Any shoe whose upper can be drawn over by hand can be lasted upon this machine.

3d. A shorter tack is used than is practical in hand lasting.

4th. No. tacks are wasted.

5th. Lasting upon this machine is far less fatiguing to the operator than hand work.

6th. A laster can do twice as much work with the aid of this machine in a given time as by ordinary hand method.

7th. The machine is very simple in construction.

Royalty, one-half cent per pair.

Lease Price, \$150.

Boston Lasting Machine Co.,
110 LINCOLN ST., BOSTON.

The Union Cementer,

Saves to the consumer, by the prevention of Waste and Evaporation, from 15 to 30 per cent of the cement used. Being entirely closed, it is a perfect safeguard against fire.

Insurance companies will carry factories having it in them at a lower rate than without.

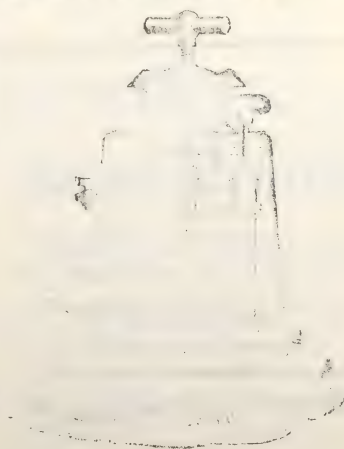

Manufactured by the

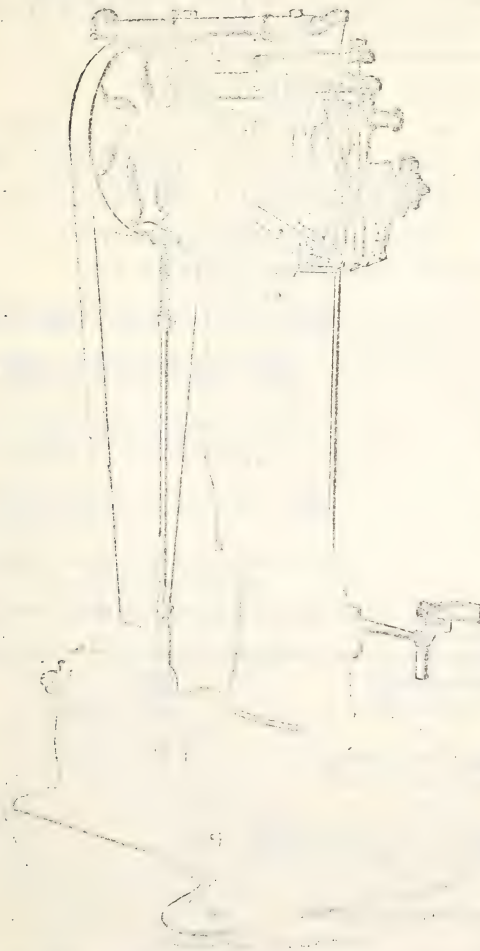

Union Ink Co.

110 LINCOLN ST.,

Boston, Mass., U. S. A.

This Machine is adapted for use in Upper Leather room as well as for Cementing Channels, one factory having 10 machines, 8 of which are used in Upper Leather room.

CONSOLIDATED

Hand Method

Lasting Machine Co.,

164 HIGH STREET,
BOSTON, MASS.

The process of Lasting by this Machine is identical with that done by hand giving quality of work equal to the best hand work on the finest shoes. It uses smaller tacks, a less number, and drives them so completely that the points are clinched beyond the possibility of injuring the stockings or feet of the wearer. It is automatic in all its movements, dispenses with all forms or clamps, and uses any last, regardless of size or shape therefore making a decided saving in the cost of lasting. Thoroughly indorsed by leading manufacturers.

Stanley Manufacturing Co.,

HAVE PURCHASED OF THE

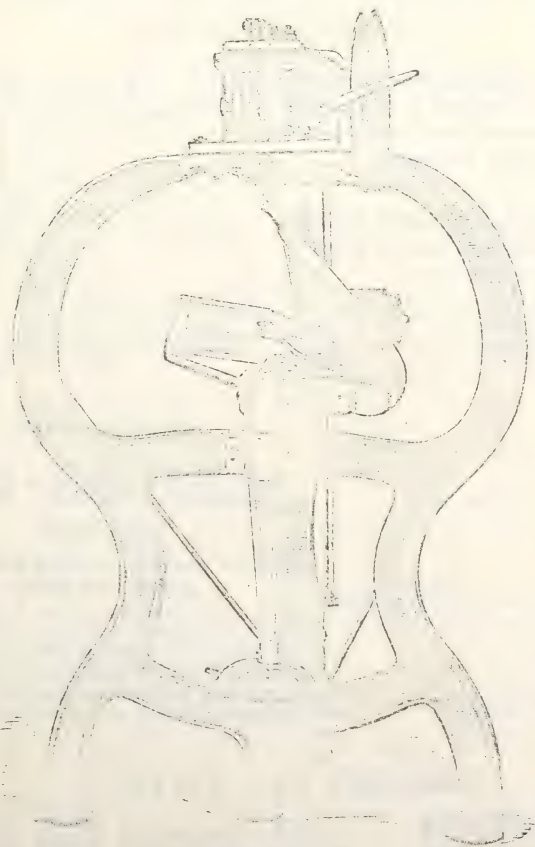

McKAY SEWING MACHINE ASSOCIATION

Their Factory at Lawrence, Mass., Tools, Gauges and Patterns, and an exclusive License to make and sell

McKay Sewing Machines & Accessories,

And are now ready to receive orders for the same, and for spare parts, guaranteeing the highest standard of excellence for all work done by them. Having retained the skilled workmen so long employed in this well-known Factory, they are ready to execute promptly and in the best manner, orders for all kinds of Light Machinery.

Illustrated Price List of Sewing Machines mailed on application.

Estimates for Machinery of New Design given upon application.

— ADDRESS —

F. F. STANLEY, Treasurer, 108 Summer St., Boston, Mass.

— THE —

Reece Button-Hole Machine Co.

MANUFACTURERS OF THE ONLY PRACTICAL

BUTTON-HOLE MACHINE

IN THE MARKET.

The Reece Button-Hole Machine
Procures a Saving of from 20
to 40 Cts. Per Case on Worked
Button Holes.

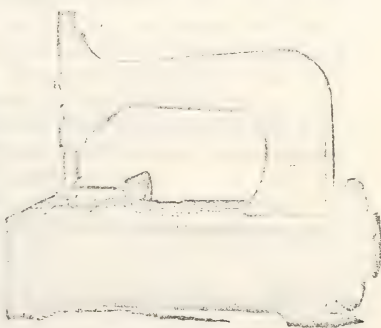

A SINGLE OPERATOR CAN CUT AND MAKE
FROM 4,500 TO 5,000 BUTTON
HOLES PER DAY.

The holes are automatically cut, spread and un-
clamped by the machine, and the stitching mechan-
ism automatically started and stopped, leaving the
operator only to cut the thread, place and clamp
the material to be stitched.

THE REECE Button-Hole Finishing MACHINE

Procures a Saving of from 40 to 50
Cents Per Case.

Its capacity is from 15 to 18 Cases per day,
and the work produced is far superior to that done
by hand. This machine collects the thread ends
and stay cord and stitches them to the inside of the
button-hole pieces without showing through
on the right side and without folding the
work, thereby avoiding any marking or creasing.

OFFICE AND FACTORY,

458 to 462 Harrison Ave., BOSTON, MASS.

HAVERHILL OFFICE, 9 ESSEX ST.

Shoe Manufacturers

—USING THE—

GOODYEAR MACHINES,

TESTIFY FROM THEIR EXPERIENCE THAT

Goodyear Welts

Wear Better than Hand-Sewed,

And it is because by the use of these Machines they secure a more perfect Uniformity and Regularity with the work than it is possible to obtain from any given number of hand workmen; the latter are never to be relied upon with equal certainty, either as to Quantity or Quality of Work.

Why not give YOUR Customers what is needed—**GOODYEAR WELTS**? Cost more? Very little. There are no shoes in the market, but Hand-Sewed, that approach them in quality, and these cost fifty per cent. more to manufacture than **GOODYEAR WELTS**.

GOODYEAR WELTS are Welted and Stitched while on the Last; hence retain their style and shape much longer.

GOODYEAR WELTS are made with a whole Innersole.

GOODYEAR WELTS are better than hand-sewed shoes, and when properly made can never rip.

Lease of full Welt set, including eight machines, \$675.

THE GOODYEAR TURN MACHINES

are in general use. Millions of pairs were sewed on them last year. If made right they are better than Hand Turns.

LEASE OF TURN SET, - - - \$350.

For names of manufacturers claiming as above, and for further particulars, apply to the office of

THE GOODYEAR SHOE MACHINERY CO.,

NO. 138 SUMMER STREET, - - - BOSTON, MASS.

BROOKS BROS.

Hawkins Leatherboard Cutter

— FOR CUTTING —

LEATHERBOARD,

STRAWBOARD,

LEATHER,

FELT,

PAPER,

FLANNEL,

COTTON CLOTH,

Or any other material where cutting die can be used.

The block on this machine is forty-six inches long, fourteen inches wide, and can be extended in width to twenty-four inches if the work requires it. The driving pulley is 16 x 4 and should run four hundred and fifty turns per minute.

Repairing and Machine Work Generally.

Whittemore Manufacturing Co.,

(Successors to D. WHITTEMORE).

MANUFACTURERS OF AND DEALERS IN

BOOT & SHOE MACHINERY.

COUNTER STITCHER.

BAY STATE NO. 2.

Pegging Machines of all kinds, Wax Thread Machines, Monitor Flycutter, Side Welt Machines, Punching Machines, Embosser Machines, Rolling Machines, Star Sole and Upper Leather Splitters, Edge Trimming and Setting Machines, Lining Markers, Patent Nail Drivers, Mallets, Cutting Boards, Duplicate parts of our own and many other machines, constantly on hand. A special feature of our business is repairing Pegging and Wax Thread Machines, for which we have facilities unequalled. All work done by us guaranteed. Particular attention is called to our New and Improved Wax Thread Machines—the Bay State No. 2, and the COUNTER STITCHER, both of which are here illustrated.

Our BAY STATE No. 2 is acknowledged by all who have given it a fair trial, to be superior to any other in use, doing more work and with less wear to the machine. So generally is it known, that it is useless to cite names of those using them, as we have them running in nearly every manufacturing town in New England, and they establish their own reputation. We fit them with 1, 2 or 3 needles, from 1-16 to 7-16 space, to run very fine cotton or linen. To any one in need of such a machine, we would invite them to try this one.

The COUNTER STITCHER has the stitch reversed from others, the loop being on the top, thus enabling the operator to hold his work upside down and stitch on the counter or strap without pasting or tacking. Manufacturers having this class of work to do cannot afford to be without this machine. We have the most convincing proof of its utility from the leading manufacturers in the country. We fit them with two needles for stitching two rows at once if desired. To those in need of such a machine, or anything in our line, we would extend an invitation to call at our store.

- 72 Main, corner Pleasant. Key at box.
- 73 Ward Hill school-house. Key at J. E. Bradstreet's store.
- 71 Bradford Academy (private.)
- 7 Haverhill Paper Mill (private.)

The fact that an alarm box is located near their residence and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire, should be a matter of common education. The Board of Engineers recommend to all persons who may see this notice, that they make the necessary inquiries to enable them, in case of need, either to get the key and pull the box, or to direct others to do so. Time saved in this way may sometimes prevent a conflagration.

Get the key to the nearest box to the fire; open the box, pull the hook down once and let go. After giving the alarm, remain awhile, if possible, by the box, to direct the firemen to the fire. Never try to remove the key from the box. Each box contains a small bell, which, if heard before you pull, indicates that the alarm has been previously given. Do not pull a box while an alarm is being sent in from another box. Never open the box, or touch the apparatus, except in case of fire. Never sound an alarm for a fire seen at a distance. Be reasonably sure there is a fire before sounding an alarm.

Persons holding keys should never let the key go out of their possession, except to some responsible person, to give an alarm.

City hall bell and Prescott's whistle will give number of box, thus; Alarm from box 24—bell and whistle will strike and blow twice (- -), pause, then four times (---) repeating the same. City hall bell will strike one stroke at 12.45 daily.

E. CHARLESWORTH, Supt.

Mails leave 10.30 A.M.; arrive 4 P.M.

GENERAL INSTRUCTIONS.

See that your letters are sealed and stamped.

Do not abbreviate the address. Always use street address or box number when convenient.

"Visitors" or "transients" should have mail addressed "in care of." etc.

Place your address on upper left hand corner of envelope, and it will be returned if undelivered.

Place your stamp in upper right hand corner.

Nothing can be attached or pasted on postal card, except at letter rates.

Postmasters are permitted to read postal cards to prohibit the mailing of obscene literature.

Second, third and fourth class matter must not be sealed against inspection.

There is no limit of weight to first or second class matter or single books; all other matter is limited to four pounds.

Liquids can be mailed only in metal or wooden boxes.

Persons sending postal cards and who write upon the address side of them "in haste," or other words unconnected with their delivery, subject them to letter postage, and they are held as unmailable.

RATES OF POSTAGE.

FIRST CLASS.

Embraces letters, postal cards, and all matter wholly or partly in writing. Rates: letters two cents each ounce or fraction, postal cards one cent each, drop letters mailed at and for office where there is no carrier delivery, one cent each, at carrier offices, two cents each.

SECOND CLASS.

Applies to newspaper publishers and news agents. Rates: one cent per pound or fraction. Publications must be issued as frequently as once in three months, matter to be fully paid.

When mailed by other than publishers or news agents, one cent per four ounces or fraction, prepaid by stamp affixed.

THIRD CLASS.

Embraces books (transient newspapers, periodicals, 1 cent, 2 oz.) photographs, circulars, picture cards, and other matter wholly in print, proof and corrected proof sheets, with manuscript copy accompanying the same. Blank checks, drafts and similar printed forms, such as deeds, insurance policies, etc. This will include check books, or books of blank drafts, but not ordinary blank books, which are fourth class matter, one cent an ounce. Checks, drafts, policies and other such papers filled up with writing will be charged letter postage. Rate one cent, each two ounces or fraction, matter to be fully paid. There is no limit to single volumes of books. Other third-class matter is limited to 4 lbs.

FOURTH CLASS.

Embraces blank and printed address cards, labels, tags, mounted maps and charts, letter paper, patterns, playing cards, visiting cards (*if written, letter rates*), paper sacks, wrapping paper, with printed advertisements thereon, bill heads, letter heads, envelopes, printed blanks, sample cards, and other matter of the same general character, the printing upon which is not designed to instruct, amuse, cultivate the mind or taste, or impart general information, samples, merchandise, models, ores, metals and minerals. Rates one cent, each ounce or fraction. If matter of two classes be inclosed in one package, the whole must be paid at higher rate.

Postal laws and regulations have been amended so as to permit transmission through the mails within the United States and territories, of liquids, except spiritous and malt liquors, not liable to explosion or spontaneous combustion or ignition by shock or jar, and not inflammable, and of soft soap, pastry or confections, ointments, salves and articles of similar consistency under certain conditions insuring safety to other mail matter in transmission.

Only the following printing is now allowed on fourth-class matter merchandise: The name and address of the person to whom it is sent; the name and address of the sender preceded by the word "from;" the number and names of the articles inclosed, a mark, number, name or letter for purpose of identification; a simple form of return request: if a patented tag or wrapper is used, the word "Patented" with the date of the patent.

By order of the U. S. Congress, hereafter the postage of seeds, cuttings, scions and plants shall be charged at the rate of one cent for each two ounces, or fraction thereof, subject in all other respects to the existing laws.

UNMAILABLE.

The following articles are excluded from the mails: liquids, poisons, explosive materials; books, pamphlets, pictures, and other publications of an obscene or indecent character; all letters on the envelope of which, and postal cards upon which, scurrilous epithets are written, printed or engraved, or dis-loyal devices printed or engraved; and all articles which from their form and nature are liable to destroy, deface or injure the contents of the mail bags, or the person of any one engaged in the postal service.

Anything in the nature of an offensive or threatening dun, apparent upon an envelope, outside corner or postal card, or conveying the suggestion that such dun is inclosed, must be excluded as unmailable.

FOREIGN.

On letters to all parts of Austria, Azores, Belgium, Denmark, Egypt, France, Germany, Great Britain and Ireland, Greece, Hungary, Italy, Luxembourg, Montenegro, Netherlands, Norway, Portugal, Roumania, Russia, Serbia, Spain, Sweden, Switzerland and Turkey, five cents per half ounce or fraction thereof; prepayment, except on registered letters, optional.

Two cent postal cards can be forwarded to any of the above foreign countries.

On newspapers and books, 1 cent for each two ounces or fraction, limited to 4 lbs. 6 ounces.

Coin, jewelry, and articles subject to custom's duty, are excluded from all foreign mails.

Rates of postage to foreign countries other than as above, being subject to change each month, inquiry should be made at the foreign department for ruling rates before mail matter is deposited in the office.

All mail matter, except letters, must be so wrapped or enveloped that their contents may be readily and thoroughly examined by postmasters without destroying the wrappers.

MONEY ORDERS.—DOMESTIC.

\$300 can be sent in one day.

For any amount not exceeding \$100 on one order will be issued on payment of the following fees:

On orders not exceeding \$5, five cents.

On orders not exceeding \$10, eight cents.

Over \$10 and not exceeding \$15, ten cents.

Over \$15 and not exceeding \$30, fifteen cents.

Over \$30 and not exceeding \$40, twenty cents.

Over \$40 and not exceeding \$50, twenty-five cents.

Over \$50 and not exceeding \$60, thirty cents.

Over \$60 and not exceeding \$70, thirty-five cents.

Over \$70 and not exceeding \$80, forty cents.

Over \$80 and not exceeding \$100, forty-five cents.

FOREIGN.

Orders for Great Britain are issued at the following rates:

On orders not exceeding \$10, ten cents.

Over \$10 and not exceeding \$20, twenty cents.

Over \$20 and not exceeding \$30, thirty cents.

Over \$30 and not exceeding \$40, forty cents.

Over \$40 and not exceeding \$50, fifty cents.

Orders can also be sent to Algeria, Austria, Belgium, Canadian Provinces, Constantinople (in Turkey), Denmark, France, Holland, India, Italy, Jamaica, Japan, Leeward Islands, Luxembourg, New South Wales, New Zealand, Norway, Portugal, Sweden, Switzerland, Tasmania, Victoria, and Windward Islands.

A list of Money Order Offices may be seen at P. O., on application.

Note. The issue to a single applicant in one day, of more than three Orders, payable at the same office, and to the same payee, is positively forbidden.

POSTAL NOTES.

Postal notes may be obtained at any money order office, payable to bearer, at any money order office, for sums from 1 cent to \$4.99 inclusive. The rate for each note is 3 cents.

REGISTRATION.

Fees—10 cents beside the postage.

Valuable letters should invariably be registered, or if money is to be remitted, a money order procured. Never inclose money or valuables in an ordinary letter.

SPECIAL DELIVERY SERVICE.

The special delivery system includes all post offices in the United States and all classes of mail matter.

Accordingly every article of mailable matter, mailed at any post office in the United States, to which is affixed a 10 ct. special delivery stamp in addition to regular postage, will be delivered at Letter Carrier offices within the carrier limits, immediately on arrival between the hours of 7 A. M. and 11 P. M., and at any other post office within a one mile radius between the hours of 7 A. M. and 9 P. M.

LETTER SHEET ENVELOPES.

Issued only in the denomination of Two Cents.

DIRECTIONS.

WRITE - - - on the blank side. FOLD - - - the lower corners even with the cross perforations and then to the flap.
SEAL - - - by moistening the gum at the sides and top.
ADDRESS - - - on the side bearing the stamp. OPEN - - - by tearing off the ends and breaking the perforated line on top.

Prices from which no deviation is made.

PAD containing 25 sheets, 50c; 50 sheets, \$1.15; 100 sheets \$2.30.
